

Committee Minutes

Codes and Standards Surveillance

Date and Time: March. 23, 2015 1:00-5:00 PM

Location: Jacksonville, FL.

Chairperson: Mike Witkowski

Minutes

Topic	Discussion	Conclusions
Welcome		John introduced the officers of the committee Todd introduced 5 Past EGSA presidents in attendance
Review and update of membership		Brian distributed to membership
Meeting minutes from the fall conference in San Diego Ca.	Motion to accept and second	Minutes accepted
Presentation on Seismic ratings 1.0 and 1.5 and Wind ratings		John Giulaiano. President from VMC Group presented on seismic, oshpd, requirements. The code continues to evolve, and his insight as to how seismic effects most areas of the US, codes that apply, and where to look for them. Wind rating application has increased significantly throughout the country.
Working Group Updates		
Working Group update-Steve Sappington, UL 2200	Met 3/22/15 for 2 hours	Steve reported more work is needed on UL2200 as it applies to Custom Enclosure Packages Steve Oxtoby will lead a UL task force on custom enclosures. Steve is expecting the hose material recommendation put forth last session to pass without problem.

Working Group update-Trish Levere, Recommended Practice of Seismic	No meeting since last session	A list will be produced but has stalled, with regard to components that can be substituted or replaced with requiring OSHPD
NFPA 70	Meeting was in January Next meeting in San Antonio	Herb attended in Hilton head SC, the labeling of Gensets by the manufacture of bonding condition. If changed in field, the product must be relabeled by the installing electrical contractor.
NFPA 99, 110, 111, 70	111 voted on 99 scheduled for a 2 day prelim meeting in Aug- site TBD	NFPA vote on 111 has passed with regard to Batteries
International Code Council <ul style="list-style-type: none"> International Building Code. (IBC) 	No new report	New version due out in 2015, but will not be adopted for some time. We are blind to its workings.
UL2200 (Stationary Generators)		Vote expected to adopt EGSA-C&SS recommendations on hose material
UL2201 (Portable Generators)	15kw and below, working on lowering emissions and CO. Also improved labeling for non use indoors	Herb monitoring.
IEEE 1547.1a Standard Test Procedures for Distributed Resources	Writing parent document will publish in two years	Rewriting, Herb said there are lots of working groups, Marcel is watching and is on the committee as well
IEEE 1547.2 – IEEE 1547 Standard for Interconnecting Distributed Resources with Electric Power Systems.”	Writing parent document will publish in two years	Should help with 1547.1- 1547.8
IEEE 1547.3 – “Draft Guide for Monitoring Information Exchange and Control of DR Interconnected with EPS”	Writing parent document will publish in two years	Should help with 1547.1- 1547.8
IEEE 1547.4 – Standard for Design, Operation, and Integration of Distributed Resource Island System with Electric Power Systems.”	Writing parent document will publish in two years	Should help with 1547.1- 1547.8
IEEE 1547.5	Writing parent document will publish in two years	Should help with 1547.1- 1547.8
IEEE 1547.6– “Draft Recommended Practice for Interconnecting Distributed Resources with Electric Power Systems Distribution Secondary Networks.”	Writing parent document will publish in two years	Should help with 1547.1- 1547.8

IEEE 1547.7	Writing parent document will publish in two years	Should help with 1547.1- 1547.8
IEEE 1547.8 – Extended Use of IEEE 1547 Voltage and Frequency Ride through Requirements	Writing parent document will publish in two years	Should help with 1547.1- 1547.8
ISO 8528	Next meeting in fall in Milan	Herb attended, he said poor turnout, but these are the areas being discussed Part 8 is Genset Part 13 is Safety

ISO 8578-5
Reciprocating Internal Combustion Engines Driven Alternating Current Generator Sets – Part 5 Generator Sets.

Meeting was in San Antonio in Oct

Herb attended and distributed our silencer document from the working group. He is hopeful that it is adopted.

ISO 15615
Reciprocating Internal combustion engines – Measurement procedure for exhaust silencers – Sound power level of exhaust noise and insertion loss using sound pressure level and power loss ratio

UL 1778 Uninterruptable Power Systems 2nd Edition

Meeting was in San Antonio in OCT

Herb attended and distributed our silencer document from the working group.

Herb said 5th edition came out

New business

Should EGSA align itself with AMPS from Europe

Herb and Steve Sappington gave reasons

Steve Sappington will extend invite to a member of AMPS to attend our next conference so we can open communications with them

Digital Paralleling common platform

David Cutro brought up the possibility that DOD and DOE may be asking us to reopen a discussion on a common Digital Paralleling platform across all manufactures

Mission statement, and objectives of the C&SS committee

John read

Agreement to keep the Mission statement the same, and updated the objectives document

Motion to adjourn	Seconded	passed
Attendees 57 , Repeat 33		

Action Items

Item	Person(s) Responsible	Deadline
Herb Whittall to seek approval for recommended Practice of Silence Application	Herb Whittall	Board meeting on Weds the 26 th of March, 2014
Request Board Liason communicates with NFPA regarding refusing committee membership of individual companies due to association with EGSA.	Mike Witkowski	Board Meeting on Wed the 26 th of March 2014
