

EGSA Fall Conference 2019 DD Minutes

Meeting September 17th, 2019

8 am MT

Al Powers, Chair welcomed everyone and went over the mission and ground rules for the meeting and set the positive tone for the day's presentations.

Main Speaker

Brad Wolff "Solving the Service Tech Dilemma"

Brad engaged all of us and challenged the group to really listen to the "Problem" our employees are asking about or have an issue with.

TOYA

Andrew Van Noy: Helped us understand Why it was important for him to become a Journeyman in EGSA.

Safety Working Group

Technical Topic: "PPE" Allison Short, Helped the group understand the need and the proper selection based on the Electrical Hazard. This was centered around the requirements found in NFPA 70E. Solutions were presented and alternate ideas discussed with the DD group. Education and commitment to safety throughout the Company, is a culture.

TAPP

TAPP Panel Bridging the Gap Educational Instructions and Service Providers

This panel had a debate on what the onsite providers need from Technicians and in their training. It looked at better ways to work together to bring more Technicians to the field and to the Trade.

The meeting was concluded with an opportunity for the members to provide feedback and areas of interest. These involved: Best Practices, Networking, Fuel Polishing, Safety Culture, willingness to share ideas among members and many more.

DD Meeting Closing at 11:45 MT
